### Faceshield

Part Number	Description
GA-KHG-5001	FaceShield
GA-A8150	Replacement Window

## How to Fit Ear Plugs

Roll between the thumb and the forefinger into a thin stick. Try to avoid any creases in the ear plug.

Reach over the head, pull up and out on the top of the ear, insert the rolled down ear plug into the ear canal.

Hold the ear plug in place until the foam expands to seal the ear canal.

The ear plug should only extend about 1/4" from the ear opening for a correct fit.

The ear plug should not feel loose in the ear canal.

### E.A.R.™ Classic™ Foam Ear Plugs

Slow recovery PV foam provides comfort with low pressure. It is moisture resistant, and foam will maintain its comfort, fit and critical recovery characteristics. Shape equalizes pressure throughout the ear canal as it expands. Flame retardant and dermatologically safe foam is not irritating. One size fits all. Color yellow.

### E.A.R.™ Taperfit® 2 Foam Ear Plugs

Soft, smooth, self-adjusting polyurethane foam provides, low-pressure comfort with excellent attenuation. Available in two sizes, regular and plus, for optimum comfort and protection regardless of ear canal size. Dermatologically safe foam is non-irritating. Laboratory tested NRR 32dB. Color Yellow

### E.A.R.™ Ultrafit® Premoulded Ear Plugs

Reusable ear plug. Patented Swept-Back Triple-Flange design allows a single-sized ear plug to fit a wide variety of ear canal sizes. Conforms to shape of ear without creasing. Washable, promotes worker hygiene. One size fits all. One per poly bag, 100 pairs per box. Laboratory tested NRR 21 dB. Color yellow
